

GETTING THERE

Why the IDPF/W3C Combination Makes Sense

Thursday, March 9th, 2017

Liisa McCloy-Kelley

VP, Director Ebook Product Development & Innovation, PRH

For Penguin Random House, the largest trade publisher in the world:

I co-lead a large corporate team responsible for producing and distributing nearly 5000 new ebooks annually

I work to influence retailers and standards to improve ebook experiences and help translate the desires of authors

I am changing what reading will be in a digital form for generations to come

Where We Started With Ebooks Back In the Fall of 1998

(Yes, that *was* more than 18 years ago!)

And “Reading Devices” Now... *Have* Come a Long Way And Are In Our Pockets at ALL Times

The History of Ebook Product Development Has Shown Us That Change Is Good *(and ongoing)*

- 2007** • OMG ebooks? Yeah, that might happen! (Kindle)
- 2008** • Backlist? Oh. Right. We need rights. And cheap conversion.
- 2009** • These things looks terrible? What? (Nook)
- 2010** • Books that aren't just black & white? Color books? Kids? (Apple, Google)
- 2011** • What if we started adding Video and Audio? Read along? Hey- new EPUB!
- 2012** • Wow. I thought those might have sold better. Hmmm. Interactive?
- 2013** • Wait. Phones? People are really going to read on phones?
- 2014** • We have got to figure out education. And accessibility. Standards.
- 2015** • We've figured out a lot, let's focus on enhancing where it helps the story.
- 2016** • This year is all about getting back to basics.
- 2017** • Will be about ebook formatting expanding beyond books and experience improvements for readers.

We've Even Started to Semantically Evolve as What We Do Becomes More Common...

Over the Past Several Years, There Have Been MANY Organizations and Efforts For Publishers to Participate In

Penguin
Random
House

In order to expand:

ePUB

The efforts
of these orgs
combined:

&

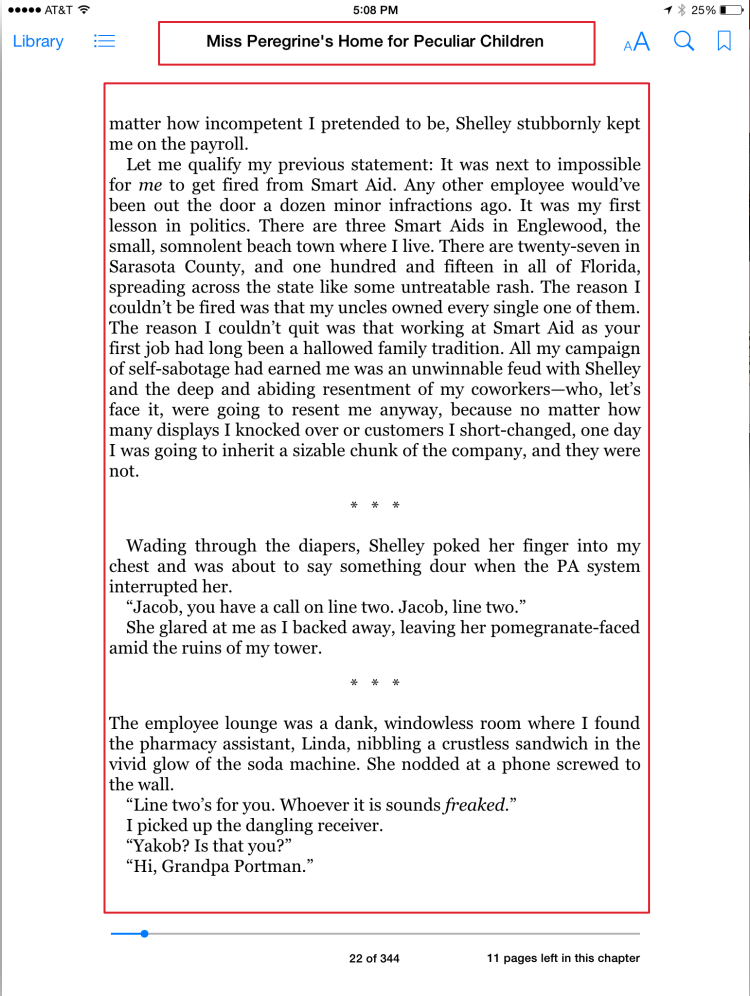

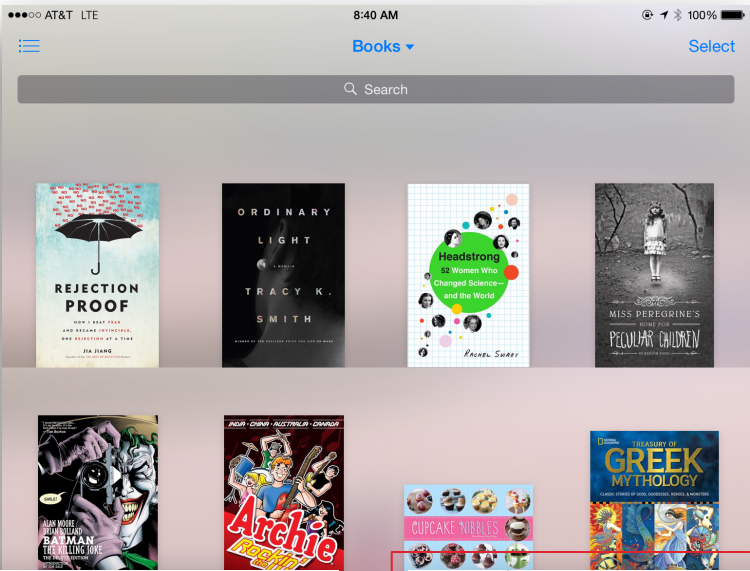

To create: PUBLISHING@W3C

There Are Now Directly Linked Efforts For A Variety of Levels of Involvement

Where to Get Involved	What Your Interest Is	What It Costs
PUBLISHING@W3C EPUB3 Community Group	Helping to maintain and update EPUB3	Free!
PUBLISHING@W3C Publishing Business Group	Helping to determine digital book business requirements and guide	For IDPF TPI members OR \$2K US small org/ \$10K US >\$50M
PUBLISHING@W3C Digital Publishing Interest Group & Digital Publishing Working Group	Helping to actually write technical specifications	For IDPF TPI members OR W3C Members
 & Other Local Groups	Helping to support adoption & implementation	
 & Other Development Groups	Open Source developments to support the industry	

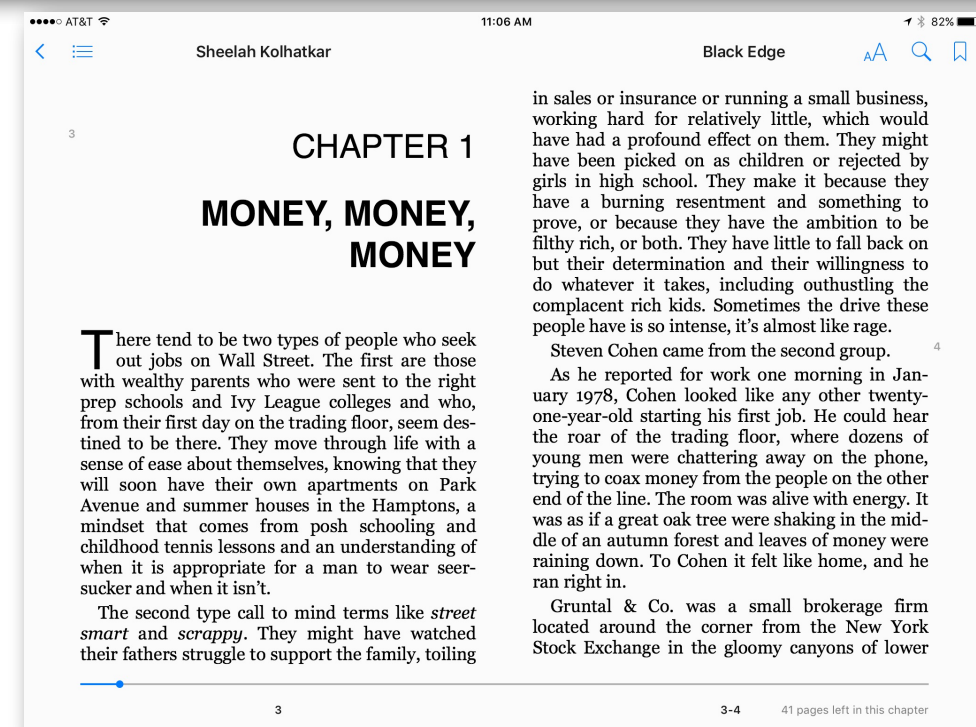

We Still Struggle to Figure Out Who Owns the UI of the Book, the Page and the Library

Penguin
Random
House

The Overriding Format Challenges For Traditional and Non-Traditional Publishing are COMMON

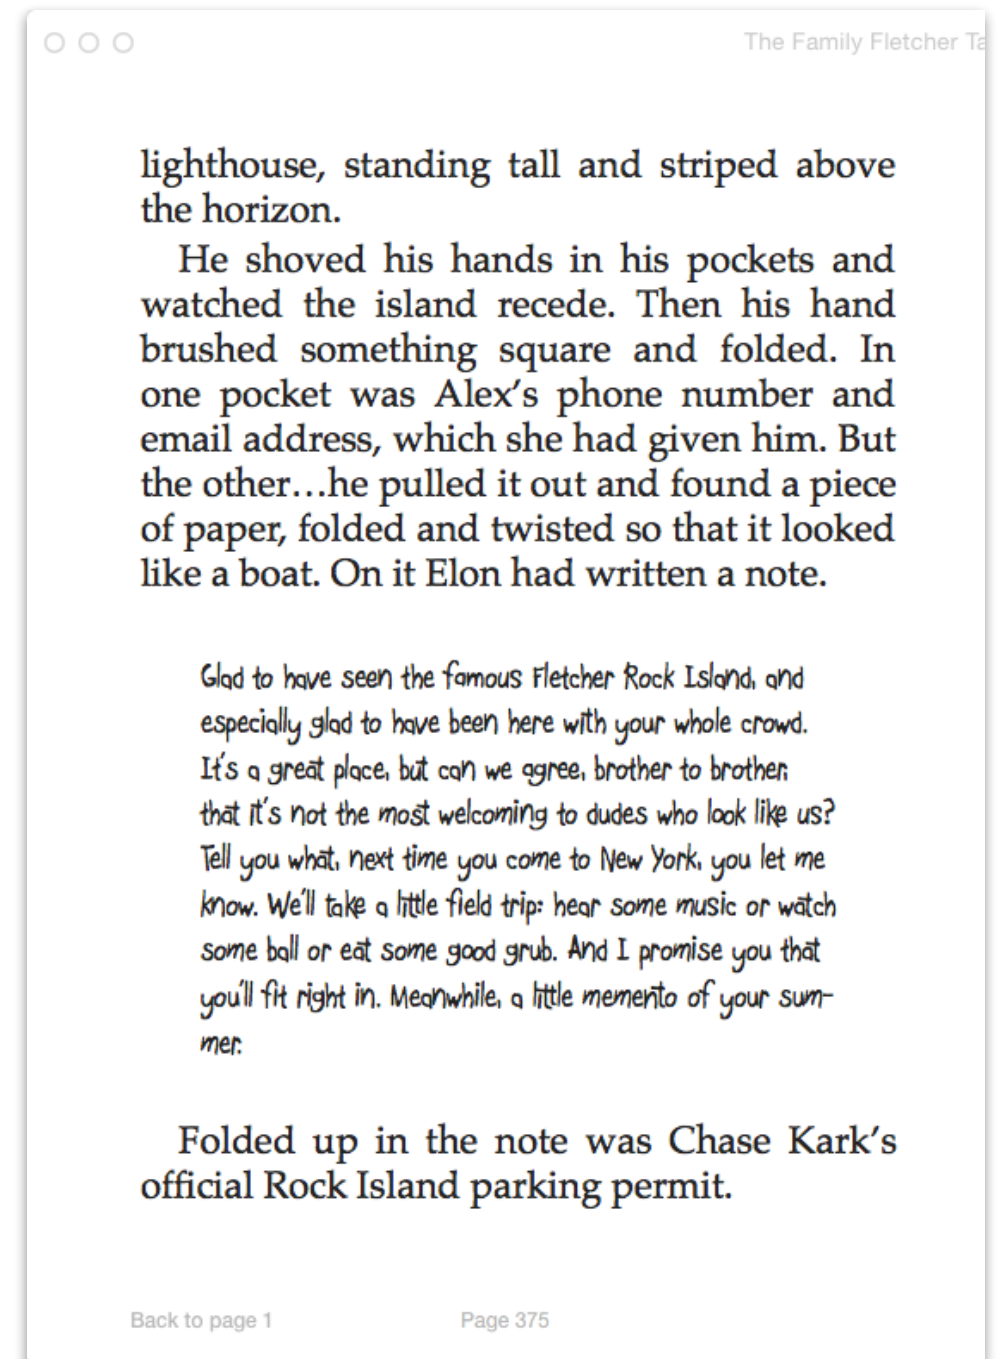

- We all have “publications” that may need to be read online or offline on a variety of devices
- We all have a desire to be able to highly “format” our content, but then let a reader “reflow” or “reformat” if they want or need to
- We all need to be able to quickly deliver our publications, but also ensure high quality rendering
- We all need to be able to include more types of content than what was traditionally a “publication”

Better Ways to Indicate When Fonts Are “Important” to the Story and SHOULD NOT Be Changed By the User

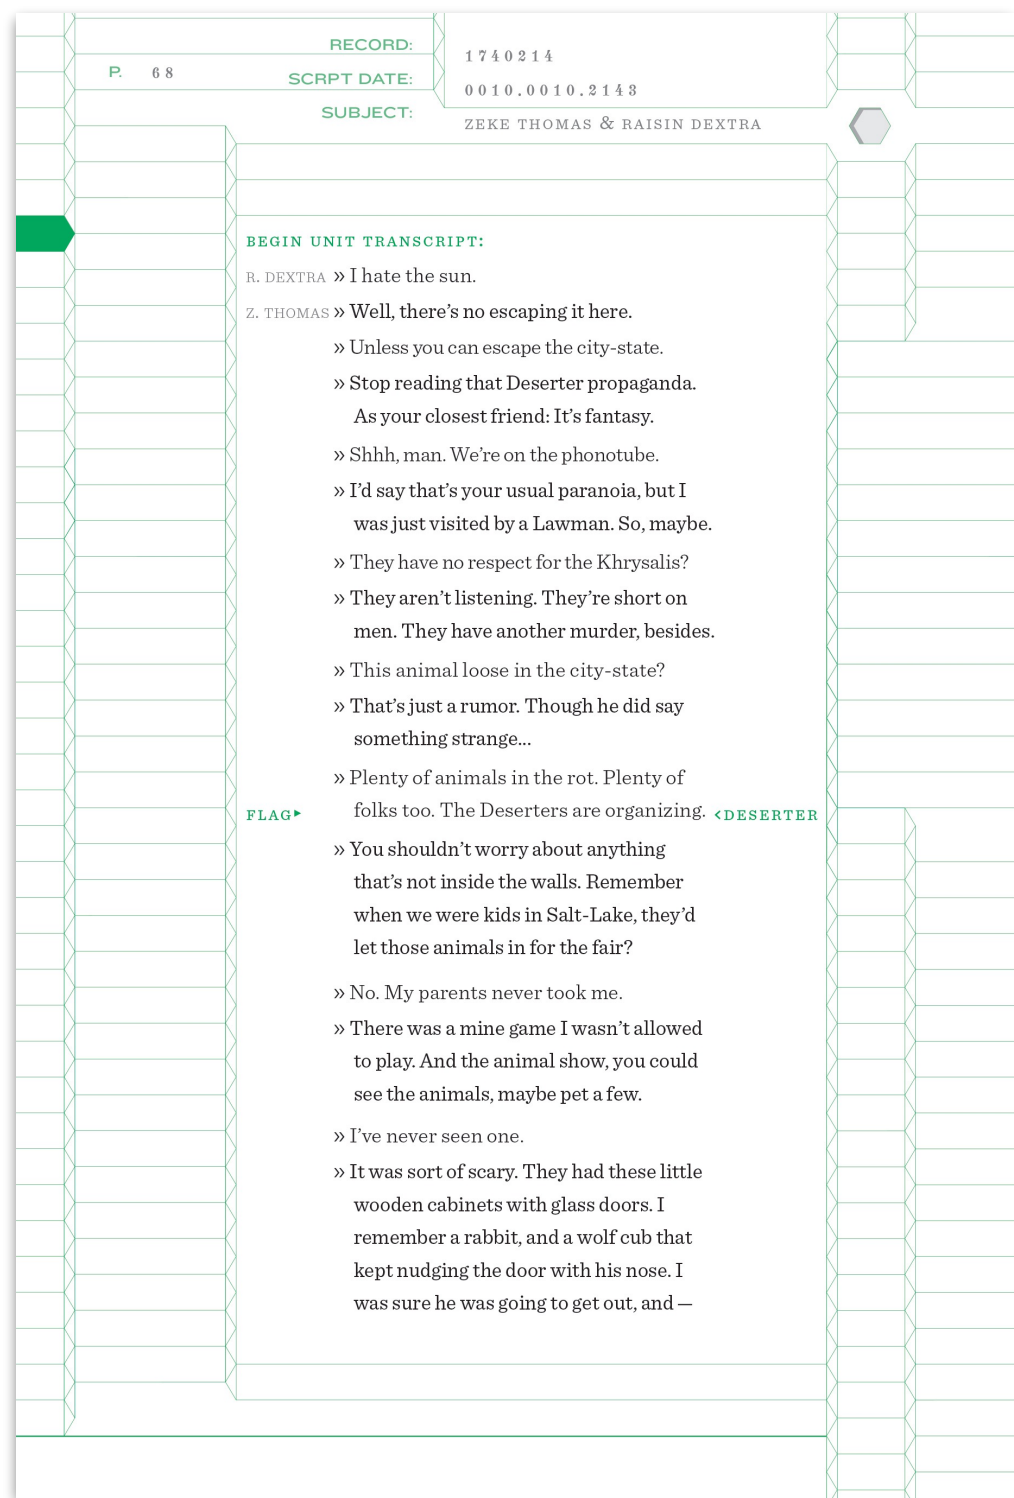

e

A Way to Identify Reading/Delivery Systems So That You Can Link Directly to the “Right” Store (or Library)

e

e

And We All Have To Figure Out WHEN to do WHAT

- For both the web at large and for publishing, we need to figure out:
 - when the story you are telling needs bells and whistles
 - and when those are just a gratuitous use of technology
- **Sometimes a good story (or web page) just needs to be easy to read!**

The Biggest Challenges For EPUB Is Implementation

- There are lots of things that are “possible” in the EPUB standard that you can’t deliver to market because they haven’t been “implemented” across enough browsers and reading systems to make development and product development viable
- **These features include:**
 - Interactivity
 - Animation
 - Auto-play/fullscreen video
 - Mix of fixed/reflow pages
 - Allowing images to edge of frame
 - Reflow around shapes

Thank You! (and go read or **MAKE** a great ebook)
